# **Continued strong growth**

#### First quarter 2022

I am proud to present Logent's Q1 2022 results, with net sales of SEK 567 million (427), which means a 33% growth and an adjusted EBITDA excluding IFRS 16 of SEK 42 million (43), which is in line with 2021. We see significant growth in all three segments, with an underlying growth driven by e-commerce in Logistics Operations and the Transport Management industry segment. The slightly lower margin is due to a shift in the range of services.

At the beginning of the quarter, we saw continued effects of the pandemic, such as high sick leave, but during the latter part, we are almost back to normal. At the end of the quarter, Logent has no government grants related to the pandemic.

While the situation in Ukraine does not affect our business other than marginally, as human beings, we are highly affected, of course. Together with our staff, Logent has contributed SEK 500,000 to UNICEF's efforts in Ukraine. We immediately took a stand against the war by stopping all services linked to Russia, regardless of sanctions, which has primarily affected transport and customs services. However, as mentioned, it has had no significant impact on our business.

#### **Geographic expansion**

During Q1, we acquired two customs companies in Denmark: Niels Bonde Spedition AP and HLT Spedition PS. This is in line with our strategy to establish a strong network of local customs offices in the Nordic region. Through these two acquisitions, Logent is now the largest independent customs broker in Denmark. Great progress has already been made in integrating these two companies, linked to organisation, IT platform, range of services, and brand.

#### New sales

We continue to have a strong pipeline, noting a continued clear outsourcing trend and customers looking for more efficient logistics solutions. We signed some new customer contracts in Q1 and expect to sign even more during Q2.

As previously announced, we established a new warehouse for Semper in Götene in Q1. The warehouse is now in full operation, and we have about 45 newly employed "Logents" in place.

#### **Digitalisation**

Logent continues to invest in IT in order to increase productivity and quality. In Q1, the implementation of a new workforce management system commenced. This will improve both our management and planning capabilities. In Logistics Services, we increased the number of people in IT in order to introduce AI services to our customers more quickly. We have noted a clear trend of an increased need for this. To date, it has resulted in both increased productivity and quality.

#### **Sustainability**

We have taken further environmental steps with regard to our company car fleet, and starting in Q2, we will introduce only electric cars. In Q1, we also decided to appoint a new position at Logent as Sustainability Manager. The position has been filled by someone with a solid background in the field, who will start in Q2. With this initiative, we intend to further enhance our work with sustainability.

I can also inform you that I will be leaving Logent in Q4 2022 / Q1 2023. I will then have been CEO of Logent for 8 years, and together, my team and I have built a great logistics company. Initially, my focus as CEO was on establishing strategies, creating profitability, and building an organisation. In recent years, this focus has shifted to growth and increasing profitability. In order to achieve this, we, as a team, have focused primarily on our staff and our customers. I am, of course, very proud to be able to conclude that during my years with the company, we have grown organically from SEK 1.1 billion to over SEK 2 billion, with a profit that has gone from SEK 12 million to SEK 178 million.

### **Financial information**

#### First quarter

#### Income

Net sales for the first quarter amounted to 567,946 KSEK (427,520), an increase of 33%. Acquired operations in Denmark contributed 3.775 KSEK during the first quarter. The Logistics Operations segment increased by 43%, the Logistics Services segment increased by 39% and the Staffing segment had a flat development compared to last year.

All business areas, except the Staffing business, show growth driven by increased demand within e-commerce.

#### Result

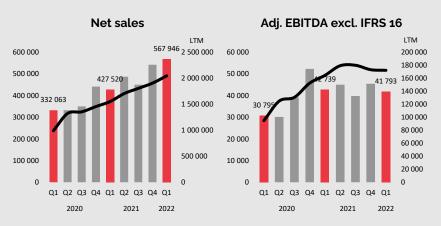

Adjusted EBITDA excluding IFRS 16 for the first quarter amounted to 41.793 KSEK (42.739).

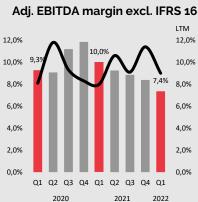

The adjusted EBITDA excluding IFRS16 margin was 7,4% (10,0%). The drop in margin during the first quarter is mainly explained by a shift in costumer mix and shortage of semi conductors for the Automotive industry.

For the Logistics Operations segment, adjusted EBITDA excluding IFRS 16 amounted to 35.913 KSEK (33.010). The adjusted EBITDA margin was 11.2% for the first quarter, which means a decrease from last year's level of 14.8%. The decline in margin is explained by the semi conductor shortage and customer mix.

For the Logistics Services segment, adjusted EBITDA excluding IFRS 16 amounted to 8.221 KSEK (5.240). The adjusted EBITDA margin for the segment amounted to 5.3% during the first quarter. This means an increase from 4.7% last year. Increase in margin is explained by growth and acquisitions in Denmark.

For the Staffing segment adjusted EBITDA excluding IFRS 16 amounted to 1.396 KSEK (4.526). The decrease is explained by reallocated internal profit from Staffing to the Logistics Operations segment and sick leaverelated costs in Norway, as Norway did not compensate for sick leave to the same extent as in Sweden. The margin for the Staffing segment amounted to 1.5% which is a decrease from last year's 4.9%.

# Liquidity and financial position

#### Cashflow

Cash flow from operating activities for the first quarter amounted to 33.894 KSEK (43.871). The decrease compared to last year is mainly explained by net working capital activities.

The net debt for the Group amounted to 845.155 KSEK (955.818). The improvement is mainly due to an increase in cash and cash equivalents.

Net debt excluding IFRS 16 amounted to 570.373 KSEK (634.236).

# Significant events during the first quarter, January – March 2021

Acquistions – In January Logent AB acquired all shares in Niels Bonde Spedition ApS and in March Niels Bonde Spedition ApS acquired all shares in HLT Spedition P/S.

# Significant events after the end of the reporting period

Organisational change - In May it was announced that CEO Mats Steen will leave the Group in November.

# Significant risks and uncertainties

# Risks related to macroeconomic factors and cyclical demand

Through its various operating segments, the Group is active in the logistics market. Like other companies operating in the logistics market, the Group is affected by the general financial and political situation at global, regional and local levels. The general demand for logistics services usually follows the trend in the gross domestic product (GDP) and the levels of trade volumes within the geographical regions where the Group provides its logistics services. The Group is thus mainly dependent on the GDP development and the related development of trade volumes in Sweden, Norway and Denmark, as well as the development in the geographical regions and markets in which the Group's customers operate, as the demand for the Group's logistics services is ultimately affected by the demand for its customers' products. In view of the above, there is a risk that such decrease in demand for the Group's logistics services could affect the business, the operating profit, and the financial position of the Group. For further description of significant risks and uncertainties, see the Annual Report for 2019 or Logent's prospectus regarding listing of the bond on Nasdaq on Logent's website, www.logent.se.

#### Risks related to Corona

During the first quarter of 2022 the impact of Covid 19 on the Group has been limited a part from, high sick leave costs in Norway and the semiconductor shortage which could be viewed as a post-Covid 19 effect

#### Risk related to war in Ukraine

Logent has so far not seen any major negative business consequence from the war in Ukraine. The development and possible consequence in the future is off course impossible to understand today. Logent management follow the development closely to act quickly on needed business measures if needed.

#### **Income**

Logistics operations continue to deliver strong growth during the first quarter, +43% The rolling 12 months revenue is now above 1 billion SEK. The E-commerce business is driving the growth for the Group. The Automotive area shows a slight grwoth and within the Industry area the revenue development is slightly negative. The semi conductor shortage in the world is still affecting the demand for the Group's services.

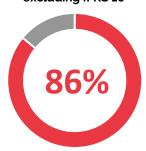

#### Result

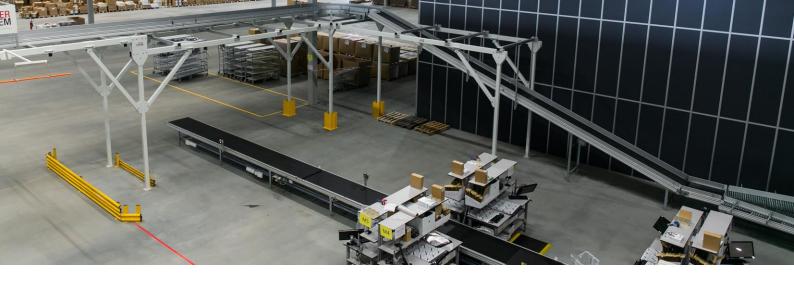

The adjusted EBITDA excluding IFRS 16 amounted to 35.913 KSEK for the first quarter, this means a slight increase compared to last year (33.010). The margin has dropped from 14,8% for the first quarter 2021 to 11,2% in 2022. The drop in margin is explained by a shift in customer mix and semi conductor shortage affecting the production within the Automotive industry.

#### Income

The Segment Staffing consists of business in Sweden and Norway. The revenue development was flat for the first quarter 2022 compared to last year. Norway continues to show good growth explained by increase in E-commerce customers. The Staffing business in Sweden has increased in terms of internal staffing supporting warehousing operations but the external staffing business has decreased.

#### Result

The adjusted EBITDA excluding IFRS16 amounted to 1.396 KSEK (4.526) for the first quarter in 2022. Margin decreased from 4.9% in 2021 to 1.5% for the first quarter 2022. The EBITDA and margin drop is explained by high sick leave costs in Norway due to Covid 19 as the government in Norway did not compensate to the same extent as in Sweden. The decrease is also explained by reallocated internal profit from Staffing to Logistics Operations.

### **Notes**

#### 1. Notes to consolidated accounts

SSCP Lager BidCo AB (publ), corporate ID number 559109-9154, is a limited company registered in Sweden with registered office in Stockholm. The address of the head office is SSCP Lager BidCo AB, c/o Logent AB Hammarby Kaj 14, SE-120 30 Stockholm, Sweden. The Parent Company and its subsidiaries' operations comprise logistics services.

Unless otherwise stated, all amounts are in thousands of SEK (KSEK).

#### 1.1 Accounting principles

These consolidated accounts were prepared pursuant to the Swedish Annual Accounts Act, RFR 1 Supplementary Financial Reporting Rules for Corporate Groups, and the International Financial Reporting Standards (IFRS) and IFRS Interpretations Committee interpretations (IFRS IC) as approved by the EU. This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting.

The Parent Company applies RFR 2 Financial Reporting for Legal Entities and the Annual Accounts Act. The interim report for the Parent Company has been prepared pursuant to the Annual Accounts Act.

Applied accounting principles are consistent with those described in SSCP Lager BidCo Group's annual report for 2020, unless otherwise expressly stated below.

## 1.2 Significant accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom correspond to the actual results. Estimates and assumptions that entail a significant risk of material adjustments to the carrying amounts of assets and liabilities in the next financial year are outlined below.

(a) Test of impairment of goodwill and trademarks

The Group tests each year whether any impairment requirement exists for goodwill and trademarks in accordance with the accounting policy described in the annual report 2021. The recoverable amounts for the cash-generating units were established by calculating the value in use. Certain assumptions must be made for these calculations, of which the most important assumptions are the discount rate and the long-term rate of growth. The carrying amount of goodwill amounted to SEK 940 939 thousand and the carrying amount of trademarks amounted to SEK 135 894 thousand as of 31 December 2021. An impairment test has been performed based on 2021, which shows that there is no need for impairment.

#### 1.3 Segment information

Three reportable segments, Logistics Operations and Logistics Services and Staffing, were identified in the Group:

Logistics Operations - Contract Logistics-solutions relating to dedicated warehouse solutions and ports.

Logistics Services - Contract Logistics-solutions relating to transport management and customs.

Staffing - Staffing solutions related to logistics built to manage volume fluctuations. Both external and internal staffing (e.g. to Contract Logistics) and for recruitment services.

Other - The item Other consist of costs that have not been allocated to the segments.

The Managing Director primarily uses a measure of adjusted earnings before interest, tax, depreciation and amortization (EBITDA, see below) to assess the performance of the operating segments excluding effect of IFRS 16 (see Note 6 and 7).

		Q1		Full-year

#### 2. Net sales

#### Division of revenue from customer contracts

Revenue from contracts with customers essentially comprises the sale of services. The Group's revenue from contracts with customers is distributed among the categories described below. The majority of the Group's revenue is recognized over time. External revenue per segment is reported below.

From 2021, the division of revenue from customer contracts has changed so that the previous categories Warehousing and Ports have been merged into Logistics Operations. The comparative figures for previous periods are updated accordingly. The accounting principles in other respects for net sales are unchanged and follow the previously published annual report.

Total borrowing	1 149 608	1 149 608	1 194 051	1 194 051	1 138 538	1 138 538

The fair value of non-current borrowing corresponds to the carrying amount since the discount effect is not material. The fair value of other financial assets, which are current in their entirety, corresponds to their carrying amount since the discount effect is not material.

#### 4. Alternative Performance Measures

The Group applies ESMA's (European Securities and Markets Authority) guidelines for alternative performance measures. An alternative performance measure is a financial measure of historical or future earnings development, financial position or cash flow that is not defined or specified in IFRS. The interim report contains financial performance measures that are not defined in accordance with IFRS so-called

alternative performance measures. These alternative performance measures are considered to be important performance indicators for investors and other users of the interim report. The primary alternative performance measures presented relate to EBITA, EBITDA, net debt, adjusted EBITA and EBITDA excluding items affecting comparability and effect of IFRS 16. Below is a reconciliation of the alternative performance measures and a description of the purpose of these. The Group's definition of these performance measures that are not defined in accordance with IFRS are described in this note. These terms can be defined differently by other companies and are therefore not always comparable with similar measures used by other companies.

# **Definitions**

Performance measure	Definition	Explanation
EBITDA	Profit or loss before depreciation, amortization, net financial items and taxes.	EBITDA is intended to show an understanding of the Group's operating activities, independent of depreciation of fixed assets and the Group's financing.
EBITA	Profit or loss before depreciation/amortization of trademarks, customer contracts and goodwill, net financial items and taxes.	EBITA is considered relevant by investors who want to understand earnings after investments of tangible and intangible assets but before intangible assets attributable to company acquisitions.
Adjusted EBITDA excluding IFRS 16	EBITDA including adjustments for items affecting comparability (see Note 6) and excluding effect of IFRS 16 (see Note 7).	The measure is relevant for complying with EBITDA excluding items affecting comparability and the effect of IFRS 16 for complying with the historical figures in accordance with bond terms and conditions.
Adjusted EBITA excluding IFRS 16	EBITA including adjustments for items affecting comparability (see Note 6) and excluding effect of IFRS 16 (see Note 7).	The measure is relevant for complying with EBITA excluding items affecting comparability and the effect of IFRS 16 for complying with the historical figures in accordance with bond terms and conditions.
Adjusted EBITDA excluding IFRS 16 (%)	Adjusted EBITDA excluding IFRS 16 related to Net sales.	The performance measure is relevant for creating an understand of operating profitability excluding depreciation in relation to the Group's net sales. The effect of IFRS 16 is excluded to report earnings in accordance with bond terms and conditions.
Adjusted EBITA excluding IFRS 16 (%)	Adjusted EBITA excluding IFRS 16 related to Net sales.	The performance measure is relevant for creating an understand of operating profitability excluding depreciation/amortisation linked to company acquisitions in relation to the Group's net sales. The effect of IFRS 16 is excluded to report earnings in accordance with bond terms and conditions.
Net debt	Interest-bearing financial indebtedness excluding liabilities to shareholders less cash and cash equivalents.	Measures external financing, taking into account own cash and cash equivalents, and is useful to users of the financial statements as a complement to assessing the Group's ability to meet financial commitments.
Net debt excluding IFRS 16	Net debt excluding effect of IFRS 16 (see Note 7).	Measures external financing, taking into account own cash and cash equivalents, but excluding lease liabilities incurred as a result of IFRS 16 to report net debt in accordance with bond terms and conditions.
