A resilient quarter with continued growth

The first quarter demonstrated the resilience of Logent's highly diversified business in a volatile market. Financial performance for the first quarter ended with Net Sales of 593.9 MSEK (+16%) and adjusted EBITDA excluding IFRS 16 of 63.2 MSEK.

The market has recently been characterized by several geopolitical tensions and conflicts, and we have seen continued uncertainty in the financial market. Logent is of course not unaffected by either recession or geopolitical uncertainty, but thanks to a diversified customer portfolio, a broad service offering and a geographical spread across several countries, the overall business has been resilient to the economic situation in the market.

During the first quarter, we prioritized proactive customer development to enhance value creation and satisfaction. This included launching several targeted customer development plans across all our geographic markets. Logent will continue to invest in our capability to secure logistics development for our customers. Our focus on deepening partnerships with key customers, ensuring that we proactively develop logistics solutions with clear and lasting value will also increase retention rates. We have received several positive signals from our customers in the way we have addressed and accelerated customer development in 2025. As a result, Logent has prolonged the partnership agreement with Volvo Group in Skövde with an extension until 2029. Also, the logistics partnership with the online fashion company NA-KD has been renewed in a new four-year partnership agreement until 2029, which is underlining the trust and important long-term cooperation. As NA-

KD is expected to soon exit the reconstruction process Logent will continue to drive the development of NA-KD's warehouse, return hub and customs operation in Landskrona.

The new Logistics Operations contract for Volvo Cars in Ghent Belgium started during the end of the first quarter and is rapidly ramping up in volume during the start of the second quarter.

In Q1 Logent also started up several new customs partnerships with customers such as Air Partner, Stegra and Tollit. New Staffing contracts during the first quarter include MatHem in Sweden and Newrest at Gardemoen airport in Oslo. Within Transport Management we have invested into an expanded sales organization in Finland to further accelerate growth in this geography.

Logent will continue to adapt to the evolving market conditions, both in terms of how we manage our business, the way we run our organization but also what we offer to our customers to always stay relevant. I firmly believe we are on the right journey to build a stronger logistics champion in Northern Europe.

I want to thank all our fantastic colleagues for the dedication and hard work for Logent and our customers. Your commitment and professionalism are critical to our success – and I truly appreciate your devotion!

Logent sustainability goals

We create the logistics solutions of the future, for our customers, our employees, society and the environment. Together with our customers and partners, we create tailor-made logistics solutions with a focus on bringing customers closer to their goal.

Our strength is our expertise and our experience in designing, implementing and operating high-quality and efficient logistics solutions adapted to our customers' needs. Our goal is to become the natural partner of existing and new customers for daily and long-term logistics needs. Creating sustainable logistics solutions is therefore important for us, our customers, other stakeholders and to ensure functioning societies.

In times characterised by political and economic instability, we take pride in maintaining our long-term perspective and high ambitions for sustainability. In 2024, we demonstrated this commitment by joining the Science Based Targets initiative (SBTi). Additionally, we have sustained our crucial focus on HR and employee development through a range of initiatives.

Throughout 2024, we have continued to implement group-wide objectives and introduced scorecards for each business area and operation. Our aim has been to break down the overall objectives, enabling each operation to work actively on local action plans.

In 2025, we will build on this progress with a focused approach to sustainability and organisational development. Some of our key focus areas will include enhancing leadership capabilities, developing targets aligned with the Science Based Targets initiative (SBTi), and collaborating with our customers to help them achieve their objectives.

Sustainability work is guided by the precautionary principle, which means that we work actively to reduce our negative impact on the environment and people.

Logent's sustainability goals

- Increase diversity and gender equality in all positions within the organisation
- Zero serious accidents
- Zero cases of discrimination or sexual harassment
- By 2030 we shall be climate-neutral in relation to the emissions generated from our own operations (Scope 1 and 2)
- Reduce energy use by 20% per Swedish krona turnover (base year 2021)

UN Sustainable Development Goals

Logent supports the UN's 17 Sustainable Development Goals (SDGs). Based on our business model, geographical presence, possibility to influence developments and the impact of the world around us, we have chosen to focus in particular on five of the SDGs. Logent strives to set a leading example in these areas, which are in line with our new strategy and our goals.

Financial information

First quarter

Income

Net sales for the first quarter amounted to 593 890 KSEK (512 435), an increase of 16%. The Logistics Operations segment had a growth this quarter of 17%. Logistics Services have grown in Q1 by 18%, where Transport Management grew significantly, and Customs revenue had a minor decrease in the period. The Staffing segment increased by 4% compared to the same period last year.

Result

Adjusted EBITDA excluding IFRS 16 for the first quarter amounted to 63 236 KSEK (50 078).

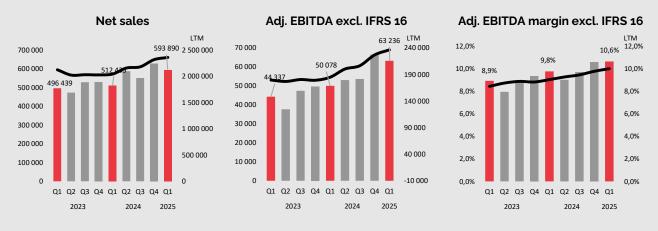

The adjusted EBITDA excluding IFRS16 margin was 10,6% (9,8%). A stable margin development during the quarter which is mainly explained by margin improvements within Logistics Operations and Logistics Services, combined with a significant increase in turnover in those segments.

For the Logistics Operations segment, adjusted EBITDA excluding IFRS 16 amounted to 52 445 KSEK (42 564). The adjusted EBITDA margin excluding IFRS 16 was 13.3% for the first quarter, which means an increase from last year's level of 12,6%.

For the Logistics Services segment, adjusted EBITDA excluding IFRS 16 amounted to 11 991 KSEK (9 056). The adjusted EBITDA margin excluding IFRS 16 for the segment amounted to 8,1% during the first quarter.

This means an increase from adjusted EBITDA margin excluding IFRS 16 of 7,2% last year. Logistics Services margin increase is mainly explained by significant volume effect within Transport Management.

For the Staffing segment, adjusted EBITDA excluding IFRS 16 amounted to -1 813 KSEK (-1 882). The loss is due to low volumes both on existing customers and lower new sales due to a challenging macro environment.

LTM

Quarter

Liquidity and financial position

Cashflow

Cashflow from operating activities for the first quarter amounted to 78 588 KSEK (29 290). The improvement from the same quarter last year is due to improved results and working capital compared to same quarter last year.

Decrease in interest rates contributed to lower interest payments, compared to last year.

The net debt excluding IFRS 16 for the Group amounted to 843 663 KSEK (910 045).

Net debt including IFRS 16 amounted to 1 318 057 KSEK (1 580 106).

Significant events during the first quarter, January – March 2025

Logistics Optimization Centre in Ghent started operations during March for Volvo Car Corporation.

On Feb 7, 2025, Joel Engström has been appointed as the CEO of the Group. Previously, Joel led the largest segment, Logistics Operations, bringing extensive experience and leadership to his new role.

Significant events after the end of the reporting period

Logent prolonged its agreement as logistics partner to NA-KD with four years.

Significant risks and uncertainties

Risks related to macroeconomic factors and cyclical demand

Through its various operating segments, the Group is active in the logistics market. Like other companies active in the logistics market, the Group is affected by the general financial and political situation at global, local and regional levels. The overall demand for logistics services usually follows the development of gross domestic product (GDP) and the levels of trade volumes within the geographical regions where the Group offers its logistics services. The Group is thus primarily dependent on the development of GDP and the related development in trade volumes in Sweden, Norway, Denmark, Finland and the Netherlands, as well as the development in the geographical regions and markets where the Group's customers operate, as the demand for the Group's logistics services is ultimately affected by the demand for its customers' products. In light of the above, there is a risk that such a decrease in demand for the Group's logistics services could affect operations, operating profit and the Group's financial position.

Risk related to geopolitical situation

The ongoing conflicts in Ukraine and the Middle East have negatively impacted supply chains and the transport sector. Although the Group has not experienced any significant effects due to the war in Ukraine or the conflict in the Middle East, the Group's operations could be negatively affected in the future if the current geopolitical tensions and conflicts were to persist, which could affect, among others, the capital markets as well as global trade including the transport sector and supply chains.

Current geopolitical situation with uncertainty in the market mostly driven by the new American

administration might impact Logent's customers' businesses and how that will change their logistics flows in the future.

Risks related to changes in inflation rates

Uncertainty in the world has increased over the past year as a result of high inflation and disruptions in supply chains. The high inflation has affected Logent through higher interest costs, energy costs and fuel costs. Logent works actively with mitigating measures and has so far managed these cost increases with contractual indexation to our customers.

The uncertainty and higher inflation have also affected the purchasing power of the population, which has generated lower volumes for some of Logent's customers.

Logent closely monitors these external factors as well as the resulting volume and cost increases and is ready to act if necessary.

Notes

1. Notes to consolidated accounts

SSCP Lager BidCo AB (publ), corporate ID number 559109-9154, is a limited company registered in Sweden with registered office in Stockholm. The address of the head office is SSCP Lager BidCo AB, c/o Logent AB Hammarby Kaj 14, SE-120 30 Stockholm, Sweden. The Parent Company and its subsidiaries' operations comprise logistics services.

Unless otherwise stated, all amounts are in thousands of SEK (KSEK).

1.1 Accounting principles

These consolidated accounts were prepared pursuant to the Swedish Annual Accounts Act, RFR 1 Supplementary Financial Reporting Rules for Corporate Groups, and the International Financial Reporting Standards (IFRS) and IFRS Interpretations Committee interpretations (IFRS IC) as approved by the EU. This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting.

The Parent Company applies RFR 2 Financial Reporting for Legal Entities and the Annual Accounts Act. The interim report for the Parent Company has been prepared pursuant to the Annual Accounts Act.

Applied accounting principles are consistent with those described in SSCP Lager BidCo Group's annual report for 2024, unless otherwise expressly stated below.

1.2 Significant accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom correspond to the actual results. Estimates and assumptions that entail a significant risk of material adjustments to the carrying amounts of assets and liabilities in the next financial year are outlined below.

(a) Test of impairment of goodwill and trademarks

The Group tests each year whether any impairment requirement exists for goodwill and trademarks in accordance with the accounting policy described in the annual report 2024. The recoverable amounts for the cash-generating units were established by calculating the value in use. Certain assumptions must be made for these calculations, of which the most important assumptions are the discount rate and the long-term rate of growth. The carrying amount of goodwill amounted to SEK 1 081 752 thousand and the carrying amount of trademarks amounted to SEK 150 784 thousand as of 31 March 2025. An impairment test was performed on 31 December 2024, which showed that there was a need for impairment of Goodwill in business segment Ports based on change of operator in Port of Gothenburg in 2026. A depreciation of SEK 69 245 thousand was made in business segment Ports in December 2024.

1.3 Segment information

Three reportable segments, Logistics Operations and Logistics Services and Staffing, were identified in the Group:

Logistics Operations - Contract Logistics-solutions relating to dedicated warehouse solutions and ports.

Logistics Services - Contract Logistics-solutions relating to transport management and customs.

Staffing - Staffing solutions related to logistics built to manage volume fluctuations. Both external and internal staffing (e.g. to Contract Logistics) and for recruitment services.

Other - The item Other consist of costs and items that have not been allocated to the segments.

The Group CEO primarily uses a measure of adjusted earnings before interest, tax, depreciation and amortization (EBITDA, see below) to assess the performance of the operating segments excluding effect of IFRS 16 (see Note 6 and 7).

2. Net sales

Division of revenue from customer contracts

Revenue from contracts with customers essentially comprises the sale of services. The Group's revenue from contracts with customers is distributed among the categories described below. The majority of the Group's revenue is recognized over time. External revenue per segment is reported below.

From 2021, the division of revenue from customer contracts has changed so that the previous categories Warehousing and Ports have been merged into Logistics Operations. The comparative figures for previous periods are updated accordingly. The accounting principles in other respects for net sales are unchanged and follow the previously published annual report.

4. Alternative Performance Measures

The Group applies ESMA's (European Securities and Markets Authority) guidelines for alternative performance measures. An alternative performance measure is a financial measure of historical or future earnings development, financial position or cash flow that is not defined or specified in IFRS. The interim report contains financial performance measures that are not defined in accordance with IFRS so-called alternative performance measures. These alternative performance measures are considered to be

important performance indicators for investors and other users of the interim report. The primary alternative performance measures presented relate to EBITA, EBITDA, net debt, adjusted EBITA and EBITDA excluding items affecting comparability and effect of IFRS 16. Below is a reconciliation of the alternative performance measures and a description of the purpose of these. The Group's definition of these performance measures that are not defined in accordance with IFRS are described in this note. These terms can be defined differently by other companies and are therefore not always comparable with similar measures used by other companies.

Definitions

Performance measure	Definition	Explanation
EBITDA	Profit or loss before depreciation, amortization, net financial items and taxes.	EBITDA is intended to show an understanding of the Group's operating activities, independent of depreciation of fixed assets and the Group's financing.
EBITA	Profit or loss before depreciation/amortization of trademarks, customer contracts and goodwill, net financial items and taxes.	EBITA is considered relevant by investors who want to understand earnings after investments of tangible and intangible assets but before intangible assets attributable to company acquisitions.
Adjusted EBITDA excluding IFRS 16	EBITDA including adjustments for items affecting comparability (see Note 6) and excluding effect of IFRS 16 (see Note 7).	The measure is relevant for complying with EBITDA excluding items affecting comparability and the effect of IFRS 16 for complying with the historical figures in accordance with bond terms and conditions.
Adjusted EBITA excluding IFRS 16	EBITA including adjustments for items affecting comparability (see Note 6) and excluding effect of IFRS 16 (see Note 7).	The measure is relevant for complying with EBITA excluding items affecting comparability and the effect of IFRS 16 for complying with the historical figures in accordance with bond terms and conditions.
Adjusted EBITDA excluding IFRS 16 (%)	Adjusted EBITDA excluding IFRS 16 related to Net sales.	The performance measure is relevant for creating an understand of operating profitability excluding depreciation in relation to the Group's net sales. The effect of IFRS 16 is excluded to report earnings in accordance with bond terms and conditions.
Adjusted EBITA excluding IFRS 16 (%)	Adjusted EBITA excluding IFRS 16 related to Net sales.	The performance measure is relevant for creating an understand of operating profitability excluding depreciation/amortisation linked to company acquisitions in relation to the Group's net sales. The effect of IFRS 16 is excluded to report earnings in accordance with bond terms and conditions.
Net debt	Interest-bearing financial indebtedness excluding liabilities to shareholders less cash and cash equivalents.	Measures external financing, taking into account own cash and cash equivalents, and is useful to users of the financial statements as a complement to assessing the Group's ability to meet financial commitments.
Net debt excluding IFRS 16	Net debt excluding effect of IFRS 16 (see Note 7).	Measures external financing, taking into account own cash and cash equivalents, but excluding lease liabilities incurred as a result of IFRS 16 to report net debt in accordance with bond terms and conditions.
